ADMINISTRATOR'S NOTES TO BRAILLE EDITION

Braille-reading students may need more time to take the test than print readers will. Before administering the test, the teacher or administrator will instruct the student how to take the test, how to answer the test questions, and how to use any answer sheets or separate documents. The student may need extra paper to answer open-ended questions.

These test administrator's notes include instructions given to the student that indicate what the student will encounter in the braille edition. Directional words, such as "below," may have been changed to reflect placement in the braille booklet. Running instructions like "GO ON" have been omitted, but instructions such as "WAIT" and "STOP" have been retained. Unless otherwise noted, in the braille versions, decorative graphics, pictures and accompanying captions, and boxes around text have been omitted.

Print and braille page numbers are listed in the following chart. The braille transcription may have required blank pages where noted. Other changes or omissions are also listed in the chart.

	p2–p3	Directions	Directions change “This test presents multiple-choice questions and short-answer questions based on several passages about scientific topics. After reading a passage, use the information in the passage to answer each question. Multiple-choice questions: • Read the question and then choose the best answer from the four choices. • As directed by the room supervisor, mark or give the answer you think is best. • If you decide to change your answer, erase your first answer completely. • Mark an answer for every question, even if you are not sure which answer is best. • Ask the room supervisor for instructions for marking your answers. Short-answer questions: • Read the description of the task. • Write your entire answer as directed by the room supervisor. • Ask the room supervisor for instructions for writing your answers. Please note: • Any writing in your test booklet will NOT be scored. Only your responses
