Arizona Science Test (AzSCI)

The Arizona Science Test (AzSCI) is the statewide assessment that measures student proficiency of the Arizona Science Standards, which were adopted by the Arizona State Board of Education in 2018. AzSCI is administered each spring as an online test to all public school students enrolled in grades 5, 8, and the 11th grade cohort.

AzSCI Scores

All score report data is based on the total number of students whose tests have been scored. Score report data in PearsonAccess^{next} is considered preliminary. PearsonAccess^{next} is not the system used for accountability purposes. All score report data in PearsonAccess^{next}, except for individual students' score reports, can be disaggregated into testing groups if these were set up by the school during the specified time frame.

Students who complete AzSCI testing receive a scale score for AzSCI, and student performance is reported as one of four performance levels: Level 1–Minimally Proficient, Level 2–Partially Proficient, Level 3–Proficient, and Level 4–Highly Proficient. Students who score at Level 1–Minimally Proficient or Level 2–Partially Proficient are likely to need support to be ready for the next grade. Students who score at Level 3–Proficient or Level 4–Highly Proficient are likely to be ready for the next grade.

There are three reporting categories that describe the knowledge and skills assessed. Student performance on reporting categories is reported as one of three levels of mastery: **Below Mastery**, **At/Near Mastery**, or **Above Mastery**. Students who score **Below Mastery** likely need more support with the content covered in this reporting category. Students who score **Above Mastery** or **At/Near Mastery** show a good understanding of the content covered in this reporting category.

AzSCI Reports

AzSCI online reports are accessed in the PearsonAccess^{next} platform (https://az.pearsonaccessnext.com). Only authorized district and school personnel may access score reports in PearsonAccess^{next} since they contain confidential student information. Access to the score reports in PearsonAccess^{next} requires an appropriate user role. Assigning user roles in PearsonAccess^{next} must be done with care to ensure that student privacy is protected.

The following reports are accessible in PearsonAccess^{next} based on the user's role and according to the published reporting schedule. The AzSCI District Test Coordinator receives access to all AzSCI published reports and is encouraged to download and securely store these electronic records.

Paper copies of the AzSCI individual student reports are shipped to districts after the end of a testing administration. Two copies of each AzSCI Confidential Student Score Report (electronic file name in PearsonAccess^{next}: AzSCI Student Report) are provided. One copy must be provided to the student's family along with the AzSCI Family Report Guide. One copy of the individual student report is for the student's cumulative folder.
